Urban Exploration

In this bedroom, unexpected design elements and maximum use of space accommodate a teenage boy's photography pursuits. The large-scale bed, placed in the center of the room, creates two distinct areas and can be used for rest, study or conversation. The headboard functions as a bookcase that's easily accessible from the desk, placed by the window for a view outside while this young man works on digitally enhancing his photos. Cork tiles display his snapshots, affixed with pushpins, of urban life. The horizontal, two-tone stripes created by the tiles are carried across the window treatments, lending a playful yet sophisticated element to the room.

Our young man has set up a darkroom in his closet to further explore his art.

McIntosh Interiors, founded by Corey McIntosh in 1998, specializes in residential and light commercial design. Projects include full-scale decoration, renovation and adding finishing touches. McIntosh Interiors strives for a room that is warm, inviting and sophisticated. A timeless contemporary look incorporates wood, metal, glass and textured fabrics. Soothing backdrop neutrals with strong punches of color ensure a calming effect. This small firm offers each client personal attention.

PARTICIPATION & RECOGNITION: A winner, *Atlanta Homes & Lifestyles's* Kitchen of the Year contest, 2006; published in *Atlanta Homes & Lifestyles*, *Better Homes & Gardens*; "Design 101," *The Atlanta Journal-Constitution*; *Designer Showcase: Interior Design at Its Best* and *Spectacular Homes of Georgia*.
